

Aim High

WITH OUR

HIGHER TECHNICAL QUALIFICATIONS

Helping you to develop your career and increase your earning potential!

University Centre Rotherham (UCR), Dearne Valley College and Rotherham College are now offering Higher Technical Qualifications (HTQ) in Health, Digital and Construction.

Higher Technical Qualifications (HTQs) are specialist technical courses developed with employers and delivered by industry experts.

HTQs have been developed in partnership with employers and are delivered by industry experts and focus on the skills, knowledge and behaviours that are in-demand by employers. They can also act as a stepping stone to further study, such as an apprenticeship or undergraduate degree.

By completing an HTQ you will also achieve a Level 4 or 5 qualification in your subject area. These technical qualifications include Foundation Degrees, Higher National Certificates and Higher National Diplomas. The courses are classroom-based with the opportunity to learn practical skills through workshops, role playing exercises, or using industry facilities and applying your learning within a practical environment.

On average an HTQ will take between 1 and 2 years to complete if studying full-time. Flexible options such as part-time, online and learning through short courses may also be available.

Whether you're looking to take the next step in your chosen career or want to retrain into a new industry, an HTQ can help you gain the skills you need for a specialist technical job.
